Nicole Fraser, Planner;

Please accept the following comments in response to the notice of public hearing:

Based on the understanding that a 3 storey apartment does not include an elevator, and a 4 storey apartment does, I support the amendment to the above named bylaw to allow construction of an apartment that could provide 50 apartment units that are accessible to all, including those with mobility aids. The option of an elevator serves all, especially during moves, injury recovery, and transporting heavier items. The prominence of stairs remains important for making physical activity an easy option for those for whom it is an option.

Sincerely,

Karin Kingston
