Subject: Pot Stores.

Mayor and Council;

I want to let you know we are totally against the proposed Pot store on 1543 Victoria street. application no. tuooo46, c n 50003.

We have had enough of the Cities problems sent to this area and this would be another big problem. How many pot stores do we need?

The downtown and area is being destroyed by people with problems coming here from who knows where. It's costing business and tax payers .

We need a vagrancy bylaw. Making more bathrooms available is not going to solve the problem and selling pot is not going to help. If you care about our City you will vote against this proposal.

Helen Sarrazin.
