### Additional information about Critical Street Light and Traffic Signal Replacement Loan Authorization Bylaw No. 9017, 2019:

This project is to Rehabilitate and replace aging street light and traffic signal infrastructure. Many City street lights and traffic signals were installed in the 1970's and are past the end of their service life. The original installation of these lights is no longer compliant with City standards or electrical code practices. According to current estimates, approximately 2,500 lights are currently past their expected life. This program will target the most critical street lights and traffic signals, which represents approximately 600 items.
