

# CONSTRUCTION UPDATE

## KILLARNEY-SUSSEX-WILDWOOD ROAD & UTILITY UPGRADES

April 12, 2017

### 2017 UTILITY CONSTRUCTION WORK

Utility construction work is planned to resume in May. 2017 construction will begin at the intersection of Killarney Drive and Wildwood Crescent, and will proceed northward along Killarney. Work on the section of Killarney between Sussex Lane and Nixon Crescent will be done second.

More details about construction logistics will be provided prior to the start of construction for each section.

### PRE-CONSTRUCTION PREPARATION

Over the next few weeks, City crews will be working in the neighbourhood doing activities such as locating underground infrastructure, documenting pre-construction conditions, and setting up for construction.

Please do not remove any paint marks or stakes, as these provide important information to our construction crews.

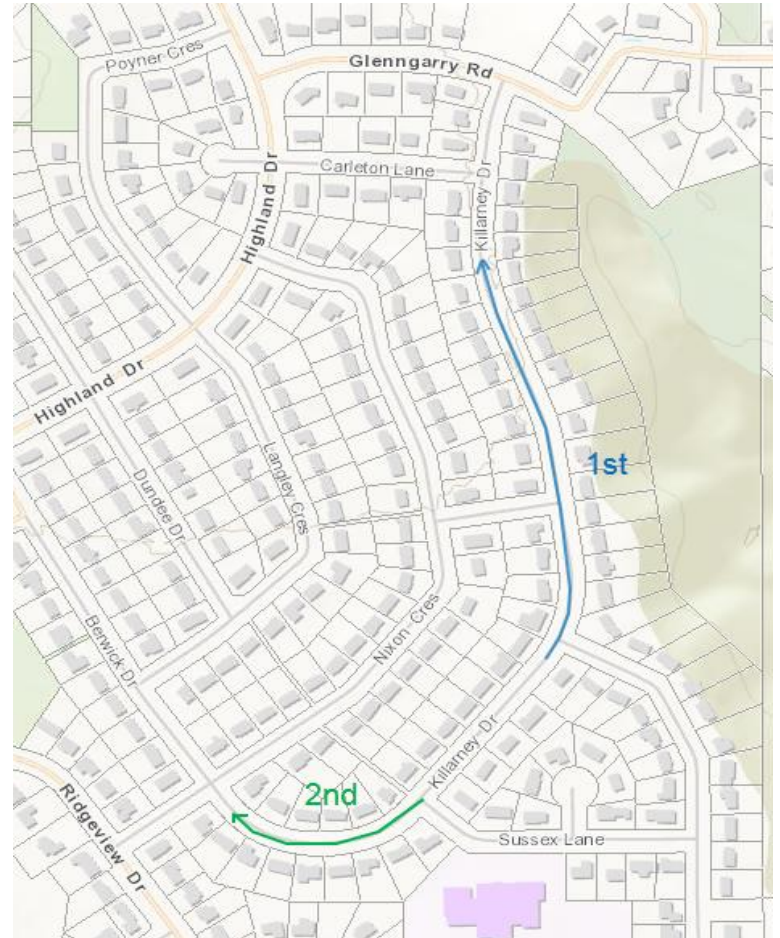

### RESTORATION & LANDSCAPING

Landscaping work on the areas that were disturbed in 2016 will begin once sod is available. Typically, this is around the start of June.

Driveways will be restored starting in May.

### IRRIGATION SYSTEMS

City staff will be contacting the homeowners in the 2017 construction areas who indicated they have sprinklers to collect information about their irrigation systems.

**2017 Utility Construction:** First, work will begin at the intersection of Killarney and Wildwood and proceed northward along Killarney. The section of Killarney from Sussex to Nixon will be done second.
