

Memorandum of Understanding for Regional Advocacy

Signed September 4, 2024.

We, the undersigned, recognize the challenges our region faces as compounding crises in healthcare, mental health, addictions and natural disasters continue to impact Canada, British Columbia and our region. We recognize that these issues overlap with all levels of jurisdiction and need joint leadership. We commit to working together as representatives from five orders of government to address these issues. Taking a regional approach, we commit our efforts to establishing the necessary regional services for the area to flourish.

Revising these priorities annually we will seek to establish:

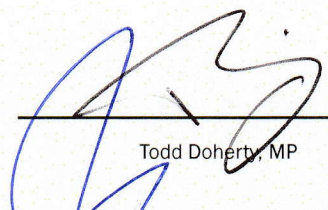

1. Expanded addiction treatment options with interest in a regional treatment center;
2. Enhanced regional healthcare services with a focus on staffing;
3. Timely public safety responses that address immediate needs and root causes; and
4. Economic development opportunities, including tools to address local infrastructure
