

How does an OCP relate to other plans and policies?

Think of an OCP like an umbrella that all other municipal plans and studies fall under and must be consistent with.

OCPs are informed by regional policy like the Regional District of Fraser-Fort George's Regional Agricultural Strategy (2022) and the Regional Cultural Plan (2022) and the Regional Cultural Plan (2022)

OCPs inform municipal secondary plans and studies like the Climate Change Mitigation Plan (2020) and the Active Transportation Plan (2011)

OCPs are implemented (in part) by the Zoning Bylaw

* This diagram does not include all secondary plans, studies and area plans.

The OCP's Vision

A Vision is the overarching statement that inspires the goals, objectives and policies of an OCP - it summarizes what the community wants to achieve over the lifetime of the plan. A Vision reflects community input received through an OCP planning process.

What We Heard

You told us natural areas connected by walking and cycling trails help make great communities.

The future of Prince George should include protected greenspaces, a vibrant downtown, denser neighbourhoods and a greater mix of uses connected by quality transit, walking and cycling trails.

The future of Prince George should provide everyone with a high quality of life.

In 2050, you would like to be able to describe Prince George as being safe, green, affordable, clean, vibrant, inclusive and sustainable.

Proposed Vision

As BC's northern capital, Prince George is a thriving community with a vibrant downtown, and attractive neighbourhoods that offer a range of housing options. Our local economy is strong, diverse and attractive to new businesses and emerging technologies. Surrounded by natural beauty, Prince George is a green community with a well-connected system of parks, trails and protected natural areas. Residents young and old enjoy a high quality of life in a community that values reconciliation, accessibility and affordability.
