C.2	Cairnstone Planning on Behalf of Northern Development Initiative Trust	That Council APPROVES submission of the following resolution regarding the preservation and revitalization of a strategic provincial rail corridor to the North Central Local Government Association: Preservation and Revitalization of Strategic Provincial Rail Corridor WHEREAS loss of the Squamish-Cariboo rail line which may ensue from CN Rail's plans announced in July 2025 to terminate its lease would result in shippers being forced to higher cost truck transport, increased public highway maintenance costs, loss of passenger (tourist or commuter) rail opportunity, higher GHG emissions, loss of transportation corridor redundancy affecting Western Canada, and constrained regional economic development; AND WHEREAS rail discontinuance policies applying to the former BC Rail line do not necessarily take into account regional and long-term transportation needs and priorities and might frustrate economic viability of potential new short line operators, while infrastructure funding solutions for this valuable rail line's maintenance are lacking; THEREFORE BE IT RESOLVED THAT the provincial and federal governments be encouraged to consider a new regional authority or ownership structure including First Nations and transition to a short line operator model to support regional enterprise while maintaining the strategic redundancy of the line; AND BE IT FURTHER RESOLVED THAT senior governments be encouraged to consider potential public-private rail line maintenance funding solutions.
