

POLICY

POLICY NAME: Disposition of City Owned Lands

CATEGORY: City Government
APPROVED BY COUNCIL: 2026-07-20
DEPARTMENT RESPONSIBLE: Planning and Development

PURPOSE:

To provide guidance and direction on the sale of property owned by the City of Prince George.

POLICY OBJECTIVES:

The objectives of this policy are to ensure that the City of Prince George is actively reviewing the properties owned by the City and disposing of property that does not have any current operational use, proposed future use, or strategic significance, in accordance with all applicable federal, provincial, and municipal regulatory requirements.

The disposition of these properties is desirable as it will enable the City to realize funds that can be reinvested into future strategic acquisitions of land, improvements, and other assets of a capital nature.

POLICY:

1. That property of the City of Prince George be sold when it appears that there is no present or future use contemplated or where there is no strategic benefit to the City.
2. That City Administration continually keep the property inventory of the City under review and submit recommendations to the City Council for disposal of any property considered not to have present or reasonable future use or where holding of the property has no strategic benefit to the City.
3. That each sale be considered on its own merits by the City Council taking into consideration the recommendations of City Administration.
